Jim Silverman • Enterprise Product Designer

I untangle complex systems to make work feel simple.

Work Experience

Lead UX Designer at ADP

Mar 2022 - Oct 2026 | Roseland, NJ

- Crafted the next generation vision for talent management by defining end-to-end user journeys, establishing scalable frameworks, and partnering closely with product leadership to modernize core workflows.
- Led redesign of global CRM platform used by 18,000+ customer service reps, improving efficiency and customer satisfaction through a Salesforce-based platform and human-centered Generative AI integration.
- Led cross-functional teams through design-thinking exercises, strategy sessions, and workshops, fostering collaboration and alignment across departments to ensure project success.
- Architected end-to-end service blueprints and high-fidelity systems to transform ambiguous requirements into scalable, data-driven solutions.
- Mentored team members, championing the adoption of new tools, techniques, and processes to foster skill development and a culture of continuous improvement.
- Facilitated strategic alignment across product, engineering, and business leadership, leading cross-functional workshops to drive consensus and accelerate the development cycle.

Lead UX Designer at UKG

Aug 2021 – Mar 2022 | Lowell, MA

- Led the UX strategy and integration of acquired software into the core product suite, aligning into a unified enterprise ecosystem.
- Created long-term roadmap for platform consistency and usability to support scalable growth and future-proof the design ecosystem.

Senior UX Designer at Prosight Specialty Insurance

Apr 2018 – Aug 2021 | Morristown, NJ

- Led transformation of agent platform to reduce support calls via self-service tools, real-time data, and enhanced reporting.

jimsilverman.me jim.e.silverman@gmail.com (973) 907-6028

- Shaped the product roadmap by translating research and complex business requirements into actionable enterprise design strategies.
- Designed an automated self-service platform for quote generation and policy issuance, driving process efficiency and business scalability.

Product Designer at SPS Commerce

Nov 2015 – Dec 2017 | Little Falls, NJ

- Led UX design for collaborative analytics dashboards in retail SaaS.
- Designed internal Extract, Transform, Load system troubleshooting tool to streamline support.

Design Team Lead at Fareportal

Apr 2013 – Oct 2015 | New York, NY

- Spearheaded UX strategy for a cross-disciplinary team, overseeing travel platforms serving hundreds of thousands of daily users.
- Led the responsive redesign of CheapOair, doubling mobile conversion.

Mobile UX Designer at Usablenet

Jul 2011 – Mar 2013 | New York, NY

- Delivered mobile designs for clients in eCommerce, travel, and hospitality.
